# FUNCTIONAL ENGLISH COURSE

Today, knowledge of English language is widely recognised as a key skill which boosts employability. A decent knowledge of English language can work wonders for anyone - whether a student, a professional, an employee or a businessman. Young people having a good knowledge of English with an ability to write and speak correct and impressive English are likely to have more chances to get selected for a lucrative job than those who don't have this ability

Learning English may seem difficult at first, but with the right approach and regular practice for a few months, a person can certainly acquire a decent knowledge of English and great fluency in spoken English. Remember, learning language takes time, there is no shortcut or magic mantra, only regular practice and patience will help you reach your goal.

To gain a high level of competence in English, a person has to master the following aspects of the English language.

- 1. Fluency words and their correct pronunciations.**
- 2. Various English Sentence Structures**
- 3. Ready-to-use meaningful word-groups made up of fluency words.**

Keeping all the above mentioned aspects in view, M S Shekhawat, with his long teaching experience, has designed a very pragmatic and systematic course material and video lessons to help students gain a high level proficiency in English. The books and videos have been designed and delivered in such a way that a recipient from Hindi speaking area can understand them easily. This course covers all the essentials of spoken and written English.

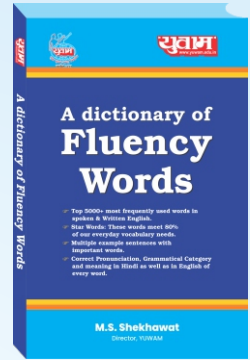

## A Dictionary of Fluency Words

"The UK residents who have undergone a full 16 years of education use merely about 5000 words in a speech and up to 10000 words in written communication " -The Guinness Book of World records.

Vocabulary is unarguably the most important part of any language and therefore, it is given pre-eminence in our course. The purpose of this book is to help you achieve a greater command of fluency oriented words. These words are normally sufficient to maintain a good frequency in English irrespective of the topic.

### Salient Features :-

- **Top 5000 most frequently used words in spoken and written English.**
- **3000 Star Words that generally meet 80-90% of everyday vocabulary needs.**
- **Multiple example sentences with important words.**
- **special focus on correct pronunciation of words with grammatical category.**
- **Meaning(s) of every word in Hindi and English.**

## English Fluency Course

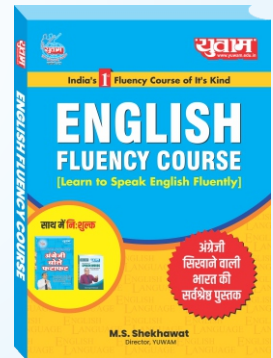

To learn to speak English fluently and confidently, you will have to master all the Sentence Structures of the English language. We have devised a unique and innovative pattern of sentence structures presented in a tabular form with a precise word order called 'Automatic Sentence Generating Tables'. With the help of these tables, a person can frame hundreds of grammatically correct sentences directly in English without being conscious of grammar and even without thinking in one's mother tongue. The book is a product of years of research and hands-on experience of its author.

### Salient Features :-

- **No Translation method, No Grammar.**
- **Automatic Sentence Generating Tables.**
- **From Basics to a significantly higher Proficiency Level.**
- **A wide range of vocabulary, i e. Verb + Noun combinations.**
- **A lot of practice material to train your Speech Organs.**
- **Free booklets :-**

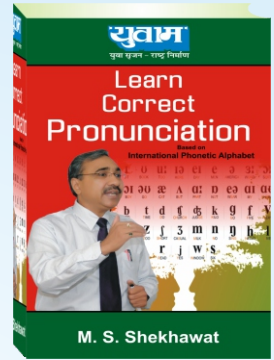

(1) अंग्रेजी बोलें फटाफट

(2) Mini Dictionary of Spoken Words

## Learn Correct Pronunciation

Pronunciation is the life blood of spoken English. Generally, we learn the pronunciation of English words in two ways - 1. By listening, or 2. As for the spelling of the word, but these are not the reliable ways all the time. To master the perfect pronunciation, you must acquaint yourself with the International Phonetic Alphabet and also refer to some good dictionaries.

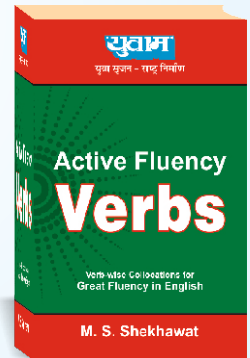

### Salient Features :-

- A thoroughly researched course on correct pronunciation.
- Very systematic, easy to understand and highly learner friendly course.
- Various sounds of International Phonetic Alphabet (IPA).
- Similar sounds of phonetic alphabet and (Hindi) Devnagari.
- Adequate emphasis on cultivating the right pronunciation.

## Active Fluency Verbs

Verbs are the words that generally denote actions, states and possessions. They play such a major role in English that no sentence can be framed without a verb. To be fluent in English, simply knowing the meaning of a verb is not enough. We must know what nouns a verb can occur with, i.e. the meaningful combinations of various Verbs and Nouns. This book gives you a comprehensive collection of Verb + Noun combinations on which the true frequency depends.

### For example :-

To play a game  
to play a match  
to play football  
to play tennis  
to play a character  
to play a part

to play a role  
to play a song  
to play a tune  
to play the piano  
to play the guitar  
and so on.

## Active Fluency Nouns

Nouns are the words that refer to people, animals, places, things, and abstract ideas. They are generally used as subjects in sentences or objects of verbs or prepositions. To be fluent in English, we must very well know what verbs they can occur with. This book gives you noun-wise combinations of Verb + Noun and also Adjective + Noun combinations commonly used in everyday English.

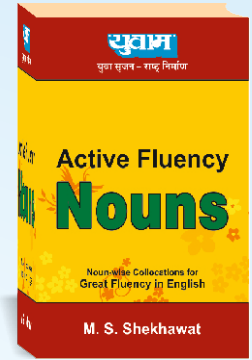

**For example :-**

### Verb + Noun combinations

to accept a challenge, to enjoy a challenge, to love a challenge, to meet a challenge, to pose a challenge, to relish a challenge, to take up/on a challenge, to rise to a challenge, and so on.

### Adjective + Noun combinations

a big challenge, a major challenge, a huge challenge, a serious challenge, a real challenge, a tough challenge, and soon.

## Active Fluency Adjectives

Adjectives are the describing words. They are used to modify nouns by using them before a noun or after the linking verbs that follow a noun or pronoun. To achieve true fluency in spoken English, we should have a clear idea of what adjectives can be used with what nouns, i.e. acceptable combinations of Adjective + Noun. This book gives you a comprehensive list of Adjective + Noun combinations that are commonly used in spoken English.

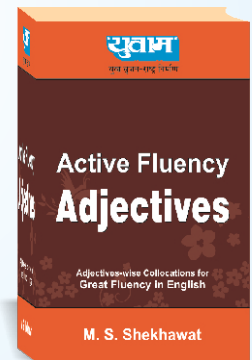

**For example -**

### (Poor = lacking money)

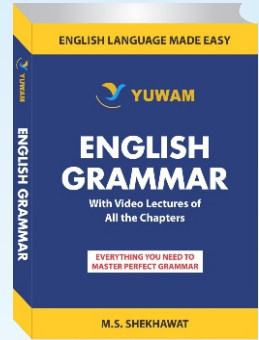

a poor country, a poor nation, a poor family, a poor man, poor people, etc.

### (Poor = not good/adequate)

poor attendance, poor decision, poor education, poor facility, poor health, poor memory, poor result, poor teaching, poor performance, etc.
